

## Contractors Standpipes

Used to connect to an underground hydrant our contractors standpipe creates a water source for the safe extraction of mains water. As standard the standpipe comes with a WRAS approved non-return valve to prevent back-flow of contaminated water into the mains system.

Available with single or double tap outlets.

**INLET:** 2 ½" Female Round Thread  
2 ½" Male Belfast V Thread

**OUTLET:** ¾" or 1" bib tap on single head standpipe  
1" bib taps on double head

**OPTIONS:** ¾" single head standpipe  
1" single head standpipe  
1" double head standpipe

**MATERIALS:** Blue powder coated mild steel body  
Brass non-return valve - WRAS Approved  
WRAS approved brass bib tap

*The brass non-return valves are WRAS approved but the standpipes are not.*
