

Hose Reels

Our fixed and swinging hose reels are ideal for use in factories, warehouses and all large public buildings. Parsch UK hose reels are manufactured in accordance with British & European Standard BS EN 671-1. Polyester powder-coating provides protection to the discs and fully complies with the Salt Spray Test requirements specified in ISO 9227.

The compact units are simple to install, with the fixed hose reel option coming with two on-site install methods.

Supplied as standard with Nozzle and Roller Hose Guide.

A flexible hose line can be supplied from stock if this method of installation is preferred.
